

## Exploring Careers

### Career Interests

[http://vcc.asu.edu/o\\_net/profiler.shtml](http://vcc.asu.edu/o_net/profiler.shtml) Use the Interest Profiler to help identify areas of interest and how they relate to careers. Your results will give you categories of careers that may interest you.

[www.christiancollegementor.org](http://www.christiancollegementor.org) Go to “Career Center”, then “Career Self-Assessment”, then “My Interest Finder.” You’ll have to create a free account. This site also has a lot of career and Christian college information.

[www.studentedge.com](http://www.studentedge.com) You’ll have to set up a free account. It includes career tests and other college planning information. Go to: [www.mystudentedge.com](http://www.mystudentedge.com), Select New User, Enter Access Code: YMZTTDFM, Complete registration page (create a user name and password)

Look at the back of your PLAN results. This shows the areas of interest based on the answers you gave to the questions on the test.

### Investigate Careers

We often don’t realize what careers are even available! Do some research. Use <http://online.onetcenter.org/> to get more information about each career, including median salary, job prospects, education needed, daily tasks, etc. Talk to people about their jobs. Consider an internship or job shadowing experience.

**Some helpful career sites from the government:** These sites have salary, occupational outlook, videos, etc.
